### How we Clean for Covid 19

- We thoroughly clean the entire lodging.
- We send all linens – including sheets, towels, blankets, and comforters to our onsite laundry service who washes and bleaches everything between each guest.
- We soak all kitchenware in a solution of bleach and water.
- We spray all touchable surfaces with a disinfectant.

### Campfires & Firewood

Every lodging has its own outdoor wood-burning firepit. You are welcome to a fire, weather permitting, with proper caution and use of local firewood only.

Please do not bring firewood up the mountain. We supply each lodging with one load of firewood at no charge, and offer more for sale on site.
